# Local SEO & Reputation Management

## **CUSTOM CONTENT**

According to Google, content is a top ranking factor. Most dealers simply don't have the time or resources to be adding relevant, original content to their site on a regular basis. We ensure they get customized articles uploaded on their site every month.

### **KEYWORD RANKING REPORT**

Improving your on-site optimization starts by creating relevant and consistent content. You then need to monitor the performance and impact that content has within search engine results. Our Keyword Ranking Report includes metrics such as your average position, position fluctuation and top 10 keywords across all major search engines, all locations and all devices.

### LOCAL LISTINGS MANAGEMENT

There are hundreds of online directories. Consistency across all of them is necessary to build authority with search engines, which ultimately leads to better rankings. Local Listing Management keeps all your online business listings up-to-date for you.

### **REPUTATION MANAGEMENT**

Search Engines are taking into account the amount of quality, positive reviews your dealership accumulates. Our Reputation Management platform allows dealers to seamlessly monitor online reviews and social media mentions to ensure a positive brand identity is represented.
