We are a trusted digital provider in 13 OEM automotive programs

## MarketAI Technology

# Revolutionizing VIN-Based Marketing with Real-Time Data

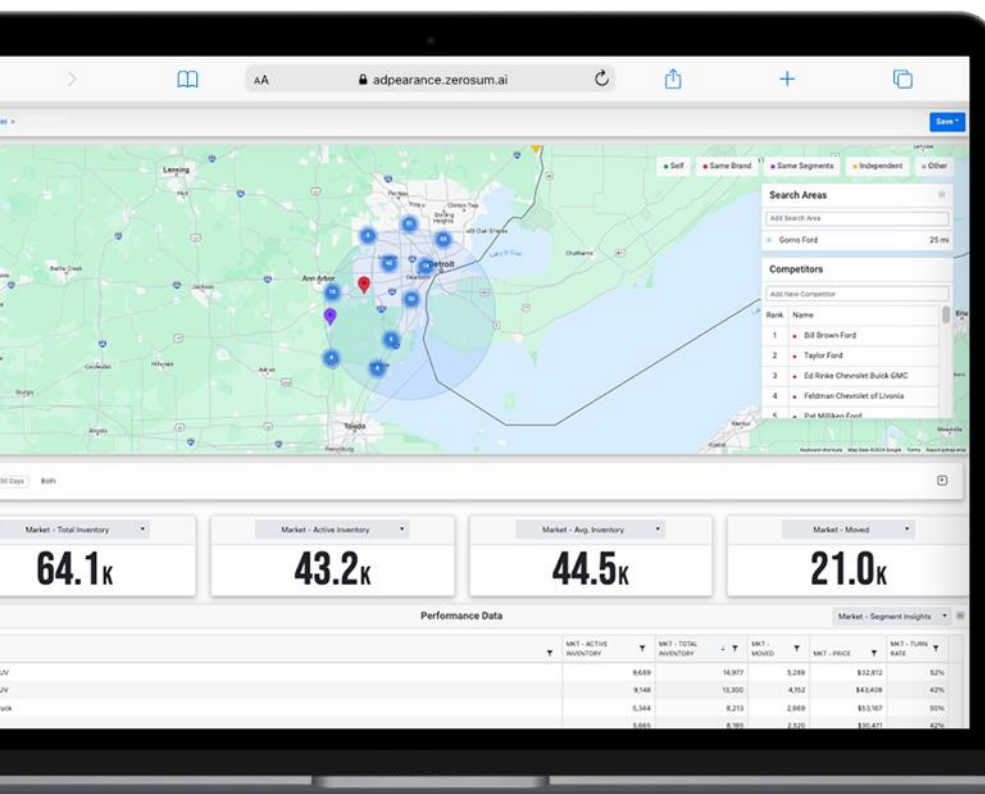

Gain competitive insights like price, vehicle movement, inventory, turn rate by model and trim for you and your competitors.

MarketAI captures, stores, and enriches billions of data points to give you the most accurate overview of your market conditions.

Every Adpearance marketing solution is powered by MarketAI; the most advanced, real-time data platform for dealers, ever created.

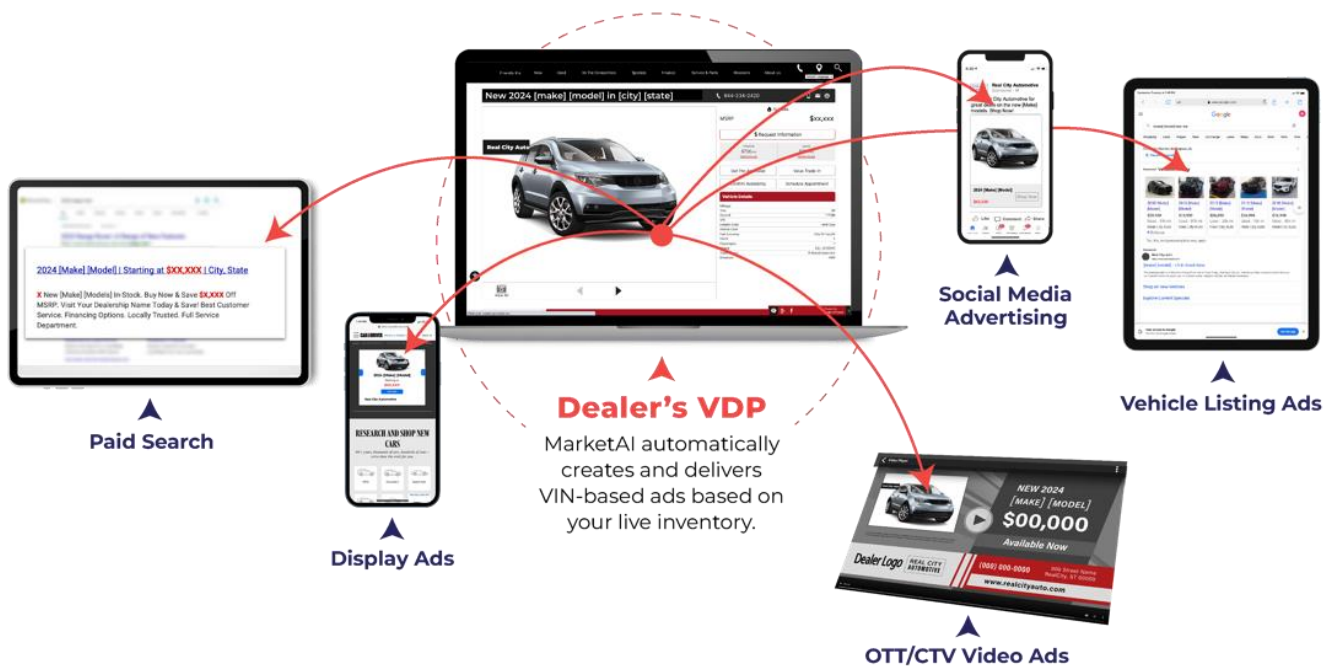

- ✓ Increase vehicle turn rates
- ✓ Increase marketing efficiency and ROI
- ✓ Gain competitive market share
- ✓ See how your competitors are performing

## MarketAI Technology

# Powerful Data Drives Better Results

Adpearance MarketAI provides rapid, real-time adaptability to market conditions to move your inventory faster and more efficiently than ever through all of today's most impactful digital marketing channels.

### Ad Prioritization

Ad impressions are allocated based on vehicle demand and likelihood to sell compared to others, resulting in the most efficient ad campaigns possible.

### Creative Automation

MarketAI pulls images and data from live inventory on your website to create dynamic, VIN-level ad campaigns.

### Omni-Channel Advertising

We launch instant ads for individual VINs using AI across various platforms such as Google search, VLAs, OTT/CTV, display, and social media.

### Lead Intelligence

We enhance MarketAI with lead data for continuous audience optimization, increasing targeting accuracy.
